

# Toby

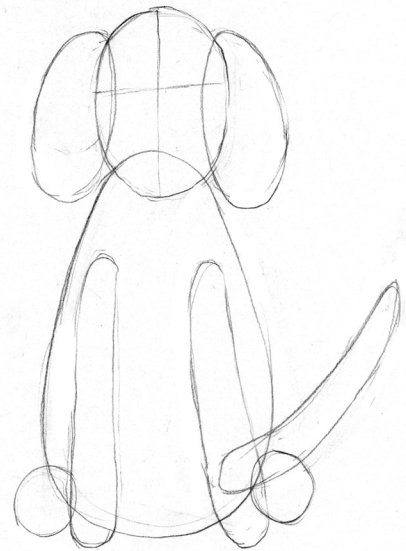

## How To Draw Toby

First, draw a big teardrop with an oval on top.

Then add ovals for his ears, 2 cucumber shapes for his front legs and 2 circles for his back paws.

Next a cross on his face so you can add his nose and eyes. And a banana for his tail!

Now we can add his face. Ovals for eyes, triangle nose and curved lines for eyebrows and mouth. You can add his collar and tag, too! Easy!

Now we can draw his fur ... make sure your wrist is loose. Toby's 'fur' is really like scribble lines. Practise on another piece of paper first.

Last step .. add some 'hatching' lines where there is shade and some pencil or paint shading'. Voila!
